Good Afternoon,

ISDA conducted an inspection of this facility yesterday. Attached are their findings and photos for your information/consideration.

Sincerely,

Tyler Fortunati, *MSIH, REHS*

Subject: Potential CAFO Complaint

Good Morning,

DEQ received the complaint included in the email below. I'm referring this to EPA under your current jurisdiction of the CAFO general permit. Additionally, I've referred this to ISDA since they have jurisdiction over NMPs and cattle wastewater storage and containment facilities. Please let me know if you plan to inspect or follow-up on this site when you're back in the office.

Sincerely,

Tyler Fortunati, *MSIH, REHS*

Subject: DEQ Inspection

Mr. Larry Waters
DEQ Water Quality Division

01/11/2019

Larry,

I have become aware of water quality violations Ex. 6 PP / Ex. 7(C)/ 7(D) I have read over the rules governing "Beef cattle animal feeding operations" and feel there are many violations. There are two lots where cattle are being fed, both lots are above irrigation ditches with no holding ponds for run offs. The two ditches with their run off eventually run into Little Willow Creek, which in turn runs into the Payette River. The Nutrient Management Plan seems to be nonexistent with this rancher. I would like to see DEQ inspect this operation. The operator of this ranch is, Larry Dahnke, 5415 Little Willow Road, Payette, Idaho, 83661, Ex. 6 Personal Privacy (PP)

Thank You

Ex. 6 PP / Ex. 7(C)/ 7(D)
